# INTRODUCTION

Final population figures from the 1961 Census are presented in this report to show basic distributions by mother tongue (i.e., English, French, and Other). Data are shown for all municipal subdivisions located in the counties (or census divisions) of each province.

The circumstances which prompted this special report stem from the increasing interest being shown in Canada's linguistic heritage, resulting partly from the intensive work of the Royal Commission on Bilingualism and Biculturalism in this field, and also from the passage of the Official Languages Act by Parliament in July 1969. This Act provides for the establishment of Bilingual Districts in Canada using the mother tongue figures as determined at each census as the basis for their delineation. (See Sections 13 and 14 of the Official Languages Act, Bill C-120.)

The report was prepared from data supplied to the Clerk of the Privy Council as prescribed in Section 14 of the Act, and which were designed to assist the Bilingual Districts Advisory Board in making its recommendations concerning the establishment of Bilingual Districts in any area. Figures show numerical and percentage distributions of English mother tongue, French mother tongue, and all other mother tongues. A feature of the report is the designation by an asterisk (\*) of all municipalities where the minority language group was 10 per cent or more of the population of the municipality in 1961. For this purpose, the minority group in all municipalities of the Province of Quebec was considered to be the group with English mother tongue. In other provinces, French was considered to be the minority language group.

The concept of "mother tongue" as employed in the census relates to the language which a person first learned during childhood and still understands. In the case of infants, this refers to the language commonly spoken in the home.

Le présent rapport donne le chiffre définitif, d'après le recensement de 1961, de la répartition de base selon la langue maternelle (soit: anglais, français et autres). Les chiffres sont ceux de toutes les subdivisions municipales des comtés (ou divisions de recensement) de chaque province.

Les circonstances qui ont inspiré la publication de ce rapport spécial proviennent de l'intérêt toujours croissant suscité pour l'héritage linguistique au Canada résultant en partie du travail intensif de la Commission royale d'enquête sur le bilinguisme et le biculturalisme dans ce domaine et aussi de l'adoption par le Parlement en juillet 1969 de la Loi sur les langues officielles. Cette loi pourvoit à l'établissement de districts bilingues au Canada en utilisant les chiffres de la langue maternelle obtenus à chaque recensement comme la base de leur tracé. (Voir sections 13 et 14 de la Loi sur les langues officielles, Bill C-120.)

Le rapport a été préparé à partir de données fournies au greffier du Conseil Privé tel que prescrit à la section 14 de la Loi et qui étaient destinées à aider le comité consultatif des districts bilingues à faire ses recommandations quant à l'établissement de districts bilingues dans une région quelconque. La répartition numérique et procentuelle est donnée pour la langue maternelle, c'est-à-dire, l'anglais, le français et les autres langues maternelles. La caractéristique particulière de ce rapport est la désignation par un astérisque (\*) de toutes les municipalités où le groupe de la langue en minorité était de 10 pour cent ou plus de la population de la municipalité en 1961. A cet effet, le groupe en minorité dans toutes les municipalités de la province de Québec était le groupe ayant l'anglais comme langue maternelle. Dans les autres provinces, le français était considéré comme le groupe de la langue en minorité.

Le concept de "langue maternelle" employé au recensement s'applique à la première langue qu'une personne a parlée et qu'elle comprend encore. Dans le cas des enfants en bas âge, il s'agit de la langue ordinairement parlée au foyer.

## SYMBOLS

- nil or zero

-- amount too small to be expressed

\* designates municipalities with a mother tongue minority of 10 per cent or more (see above).

## SIGNES CONVENTIONNELS

- néant ou zéro

-- nombre infime

\* indique les municipalités où la langue en minorité était de 10 pour cent ou plus (voir ci-dessus).
